Candidate's Statement: <p>I am interested in becoming a member of the Board of Directors of CAIDC because I think CAIDC provides an excellent vehicle to address issues of importance to International Development Consultants: CAIDC should be viewed by both International Development consultants and executing agencies and by CIDA and other government departments as the voice of the industry. As well, CAIDC can provide the opportunity for development consultants to find linkages between each other, both professionally and from a business perspective. As President of the only west coast consulting firm that serves as both Canadian Executing Agency for CIDA Projects and provides monitoring, evaluation and consulting services, I can bring a broader national perspective on the international development expertise available in Canada.</p>
